

## Green Home Remodel classes 2005

Thinking of remodeling? Help is here! Learn the basics of remodeling in a way that protects health, conserves resources, and saves money. This overview class will introduce the concepts of green remodeling and present real-life Seattle examples, with plenty of time for questions.

You'll learn:

- how to identify and incorporate your personal priorities into your project,
- the fundamentals of what makes a product or design "green,"
- tips on working with architects, designers, and contractors, and
- where to access resources for more detailed information.

Space is limited! RSVP to [thor.peterson@seattle.gov](mailto:thor.peterson@seattle.gov) or call (206) 615-0731. Classes are sponsored by the Northwest EcoBuilding Guild and Seattle Public Utilities.
